Mionnetto Prosecco (Italy) ●	7	n/a
------------------------------	---	-----

Organic ●

Grapes are grown without conventional pesticides, synthetic fertilizers, sewage sludge or ionizing radiation.

Biodynamic ●

Goes further than organic farming as it requires close attention to varied forces of nature that influence the vine. It emphasizes a closed, self-sustaining ecosystem.

Sustainable ●

In the Winery, minimal-additive winemaking philosophies apply. Environmentally sound, socially equitable and economically feasible is the motto of the Sustainable Winegrowing Program.

Feel free to bring your own wine (\$5 cork fee applies) **All wines contain sulfites.**
